

Translation Category Overview Leading the Language Revolution

In an industry long overdue for change, Summa Linguae has reinvented how multilingual communications are created. By leveraging data, automation and human expertise, we build language solutions that help you do more for less – realizing cost savings and greater efficiency with fewer human touch points.

Provable Value

We deliver business results you can prove – helping you measure your return on investment through customizable dashboards that provide cumulative value to your business over time.

Diversified portfolio of language services

We support all areas of localization — in every language, content type and vertical — with unmatched technical expertise.

Enterprise Program Expertise

We start with your localization goals and tailor processes and road maps to meet the needs of each department in your organization, while providing local support.

Services that Connect You to Global Markets

Together, we empower you to communicate with diverse global audiences more effectively with translation and localization in over 500 language combinations.

- Human translation
- Machine translation
- Marketing and transcreation services
- Translation management system deployment
- Document-centric localization
- Website localization
- Software localization and testing
- E-learning localization
- Desktop publishing
- Voiceover and closed captioning
- Legal translation
- Medical and pharmaceutical translation

Results You Can Measure

After one year of partnership with Summa Linguae, most clients experience:

- Increased visibility and control over companywide translation spend
- More value for every dollar spent
- Predictable budget allocation for translation
- Reduction in internal time dedicated to translation activities

Welcome to the Next Generation of Translation

When you join Coupa's member purchasing agreement, you can leverage Summa Linguae's unparalleled language solutions to enjoy:

- Pre-negotiated best-in-class rates
- Volume-based discount rebates
- Seamless contract execution
